Another great DLC. It might look a little pricey, compared to the full game, but the content is nearly as much, so I'd say its

worth it. Thx devs for keeping them DLC's coming :). 5 new heroes. 5 new dungeons. New poison tokens. new skills. new potions. New progression paths. This expansion adds so much to this game.so far I have only played a few runs but if you like what the base game gives you, then this will bring so much more to it, more for you to enjoy.
